Hi James,

This case is officially out of default and will possibly be going to trial (although we have offered a plea and the defendant is presently considering it).

Could you please forward your notes? (I know you mentioned the technical papers have been destroyed)

We will be faxing a summons soon, but I will try to stay in touch as we hope we can work out a plea agreement.

Thank you in advance for your time and effort,  
Jenn

Hi Jennifer,

I am the Laboratory Supervisor at the Amherst Drug Laboratory. You can fax the summons to me at 413 545 2608. I will need from you the laboratory certificate number or defendant name and date of analysis.

Unfortunately all my technical papers have been destroyed, after 15 years, according to SOP. But I still have my notes.

Sincerely,

James Hanchett

Hi James,

I'm a paralegal at the Middlesex District Attorney's Office. We have a 1992 drug case that just came out of default, and you were the chemist on the case. We might have to summons you for testimony, could you let me know what your current position is and address to send a summons for?

Thank you in advance,
